Cautionary Note

This presentation contains or will contain forward-looking statements which reflect management's expectations regarding the Company's future growth, results of operations, performance, business prospects and opportunities. Wherever possible, words such as "anticipate", "believe", "expects", "intend" "estimate", "project", "target", "risks", "goals" and similar terms and phrases have been used to identify the forward-looking statements.

These statements reflect management's current beliefs and are based on information currently available to the management. Certain material factors or assumptions have been applied in drawing the conclusions contained in the forward-looking statements. These factors or assumptions are subject to inherent risks and uncertainties surrounding future expectations generally. Honeywell Flour Mills Plc. cautions readers that a number of factors could cause actual results, performance or achievements to differ materially from the results discussed or implied in the forward-looking statements.

These factors should be considered carefully and undue reliance should not be placed on the forward-looking statements. For additional information with respect to certain of these risks or factors, reference should be made to the Company's disclosure materials filed from time to time with Securities & Exchange Commission in Nigeria.

The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

OPENING

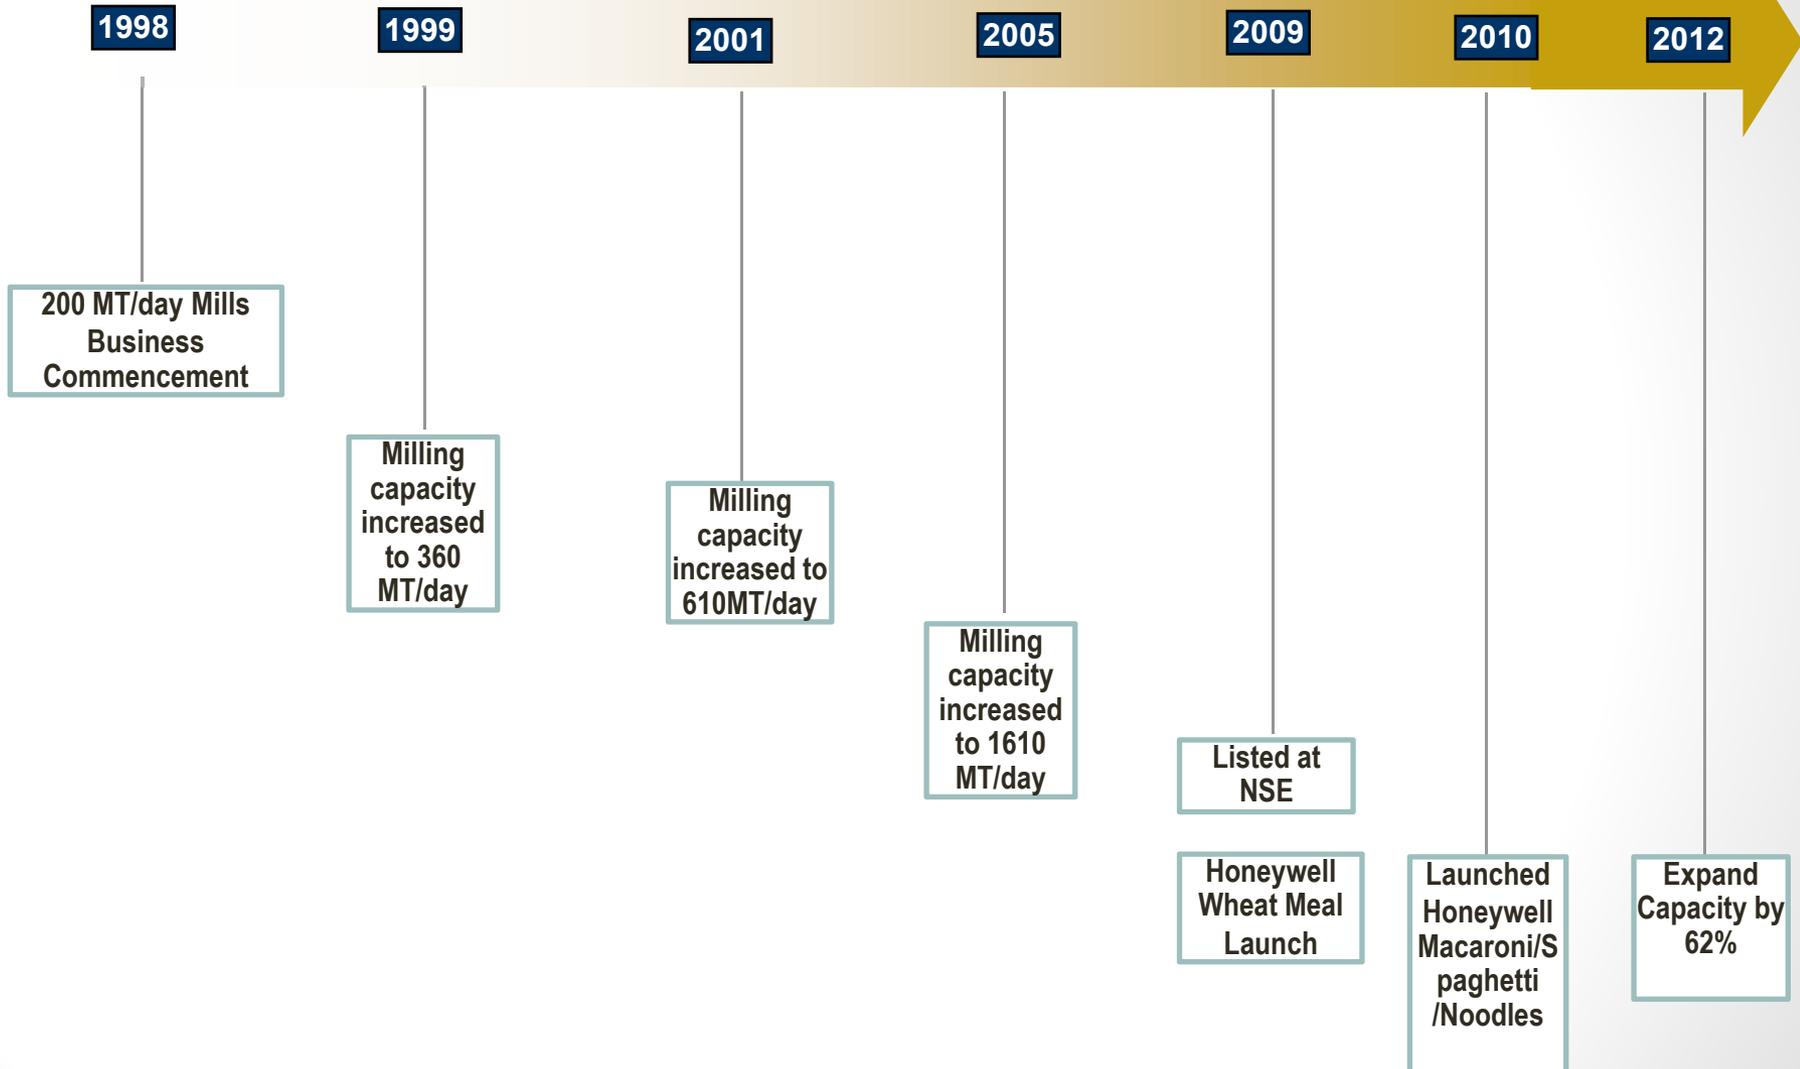

- Ladies & Gentlemen good afternoon and welcome to the Honeywell Flour Mills Plc conference call in which we share more insights into our March 31, 2011 Year End and Q1 2011/12 results and outlook

Dividend Yield	3%	1%	↑ 200%
Earnings Yield	7%	2%	↑ 250%

Strong year-end results and a significant improvement in PAT by 112%

FINANCIAL HIGHLIGHTS:-

First Quarter Ended 30TH June 2011 (3-Months)

(Nb)	June 30, 2011	June 30, 2010	(%) Change
Turnover (Nb)	9.32	9.16	↑ 2%
PBT (Nb)	0.16	0.88	↓ 82%
Taxation (Nb)	0.07	0.37	↓ 81%
PAT (Nb)	0.09	0.50	↓ 82%

THE FACTS:-

Sales

- First quarter Earnings were affected by the lost selling days during the election season, heavy rains and bad roads, and traffic congestion in Apapa.
- Delivery Trucks had great difficulty accessing factory facility.

THE GOOD NEWS: Better road conditions, earnings have been ramped up in the second quarter

THE FACTS:-

Margins

- High wheat price, almost doubling, was experienced during the first quarter. Effect of the high wheat prices was the reduction in margins of the global flour milling industry.
- The flour milling industry was unable to pass all cost increases to the customers.

THE GOOD NEWS: Price of wheat is coming down and margins are also going up .Second quarter is looking great.

THE GOOD NEWS:

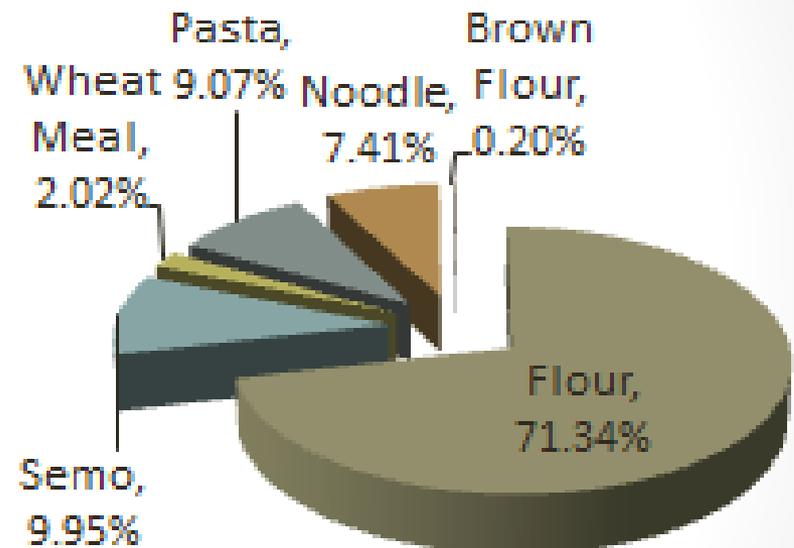

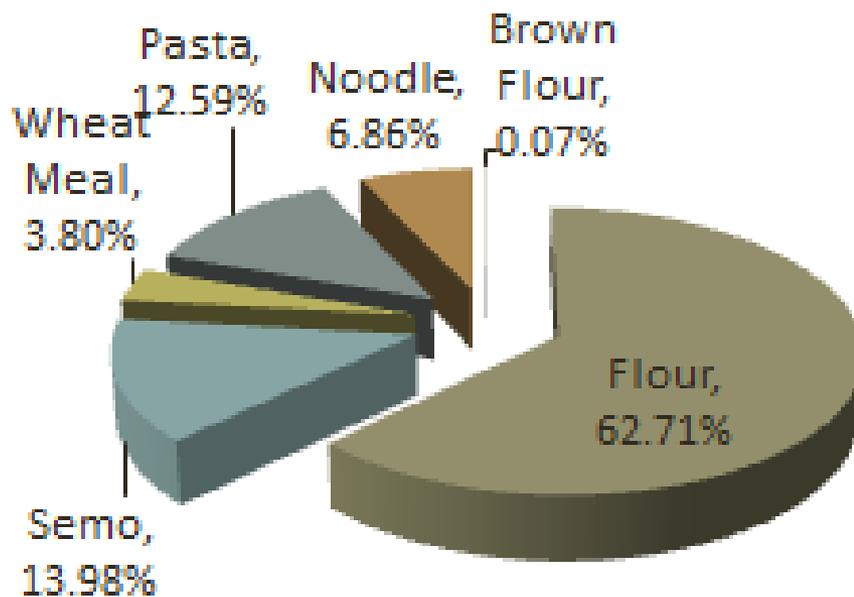

- The price of wheat is coming down and this is helping to increase our margins.
- Consumer demand remains strong
- The company is creating additional milling capacity which will support earnings growth and reduce profit volatility.

THE FACTS:-

Earnings Contribution Analysis - (3 Months)

First Quarter:30th June, 2011

First Quarter:30th June, 2010

Continuous Shift (10 percentage points) from flour to higher margin products.(Margins are rising)

THE FACTS:-

Treasury Performance

- The performance of FY2011 was positively and materially affected by the improved treasury management .

	31 st March 2011	31 st March 2010
	Nm	Nm
Net Interest Income	769	214

- An even better treasury management outcome is expected in the second quarter.

THE FACTS:-

Factory Capacity

- Factory runs at close to full capacity. Industry average is 40%
- A factory capacity growth is inevitable. Expansion plans are underway and on track. A 62% capacity increase will take cumulative expansion from 1,610MT to N2,610MT/day.
- Factory capacity is 9% of industry capacity but market share is presently 12% .

THE FACTS:-

Factory Capacity

- An investment of US \$65 million in additional milling plant, storage and packing facilities is being implemented.
- Planned expansion in capacity takes us to 11% of industry capacity and to about 20% of the market share, ceteris paribus.

GOOD NEWS: 20% market share in a population of N150million is a notable market position.

THE GOOD NEWS:

- The new mills will allow the Company drive production capacity to higher margin products such as Wheat Meal and Semolina.
- The first of the twin mills is expected to be completed and commissioned in the first half of 2012.

THE GOOD NEWS:

- This strategic move will enhance the Company's ability to withstand the volatility of input costs, such as wheat, by better matching product prices to fluctuating input costs.

DIVIDEND:-

Our policy:

- Provide Shareholders with sustainable dividend payout
- Maximize Shareholders' value in the long term.

DIVIDEND:-

- Consequently, the Board has recommended a dividend of N1.031 billion, representing 13 kobo per share, subject to the approval of shareholders at the AGM on September 26, 2011.

DIVIDEND:-

- Dividend will be paid on September 27, 2011, net of appropriate withholding tax.
- Proposed dividend payment represents an increase of 18% when compared with 11 kobo for the year ended 31st march,2011.

FUTURE OUTLOOK

- Increased milling capacity should further drive the positive growth in turnover
- Planned increase in production capacity and reduction in the cost of wheat which is the primary production input should improve bottom-line significantly
- We expect the strong demand for our products to remain stable
- Significant earnings and profit growth are indicated.

FUTURE OUTLOOK

(Nm)	Actual		Forecast			
	Q1 to June 30, 2011		Q2 to Sept 30, 2011		H1 to Sept 30, 2011	
Turnover	9,317	100%	11,897	100%	21,214	100%
PBT	162	2%	1,047	9%	1,209	6%
PAT	91	1%	745	6%	836	4%

➤ The second quarter promises a significant uplift in these parameters, whilst the planned expansion also assures sustainability, as well as growth.

CONCLUSION

Many thanks for your kind attention
